As of Date: 10/11/2020
Lessons Learned: Common Exposures

- Carpooling
- Crowded spaces and break rooms
- Coming to work when someone at home is sick
- Social activities with co-workers
Best Practices

- Always complete the UCSF daily Symptom screener completely and honestly
- Stay home if you are sick and **CALL the hotline if you have any symptoms**
- Ensure you adhere to our universal masking and hand washing protocols
- Ensure you are using the correct PPE for the situation
- Maintain social distancing in break rooms and any in person meetings or huddles
- The majority of our employees are COVID positive due to community exposure; maintain safe practices at home and in the community: **WEAR YOUR MASK**
