

## Equi-Soft™ Foam Hand Soap

Equi-Soft Foam is clinically proven to deliver the efficacy of a medicated soap with the mildness of the market leading non-medicated soap.<sup>1,2</sup>

### Efficacy

- ▲ 0.55% Benzalkonium Chloride formula clinically proven to exceed FDA requirements for Healthcare Personnel Handwash<sup>2</sup>
- ▲ Efficacy against standard healthcare micro-organisms as well as MDR Acinetobacter, VRE, CRE, and multiple strains of MRSA<sup>3</sup>

### Mildness

- ▲ Gentle foam rinses easily to remove residues that can lead to irritation
- ▲ Proven to be as mild as the market leading non-medicated hand soap<sup>1,2</sup>
- ▲ Paraben-free and dye-free formula helps reduce the opportunity for irritation and allergic reaction

### Innovation

- ▲ Triclosan-free formula empowers you with an alternative for your antimicrobial hand soap needs
