---

For Clinicians: This letter is currently only being accepted in UCSF West Bay clinical areas. To review COVID Recovered criteria, please see "Discontinuing Isolation for Patients with COVID-19" on the UCSF COVID website, under Algorithms and Clinical Guidance: https://infectioncontrol.ucsfmedicalcenter.org/coronavirus

Upon the COVID recovered date listed above, this patient should be granted access to outpatient clinic or service area destinations despite recent positive COVID result and mild persistent symptoms: (SYMPTOMS; COVID SYMPTOMS:34129)

Clearance criteria include at least 10 days from onset of COVID illness (or diagnosis date, for asymptomatic patient) and a report of being fever-free for at least 24 hours with significantly improving symptoms. This patient’s clinical course was assessed by a medical provider and the patient is deemed to be stable, recovered from COVID, and eligible for in-person visits, including visits to radiology and phlebotomy, as of the COVID recovered date listed above. They do not need additional isolation.
