

Target audience: **OB** Ambulatory Procedural Services  
Purpose: Pre-procedure or admission evaluation of asymptomatic OB patients

**KEY INFORMATION**

**COVID Hotline(415-514-7328)**  
Monday-Friday: 8am-5pm; Saturday-Sunday: 8-2pm

**VACC Hours of Operation:** Now consolidated into the RSCs. Monday-Sunday 8am-5pm

**Provider Only Central Scheduling Line**

1. Providers requesting RSC appts should use the smartphrase covidadultremotetriage for their patients & must put in a referral in Apex "Ambulatory Referral to COVID Testing Appointment or Respiratory Screening Clinic (UCSF ONLY)." Please note that if making a nurse-only visit, a future order for COVID testing must also be placed.

2. For urgent RSC scheduling needs feel free to call 415-514-2850 scheduling questions (RSC appts still require a referral even when calling) Hours of operation: Monday-Friday 8am-5pm; Saturday-Sunday 8am-5pm

**Mobile Testing (Laurel Heights)**  
Monday-Sunday 9am-5pm

**Adult Respiratory Screening Clinics (RSCs)**

**\*\*Backline #s listed below are only for non-RSC clinics sending patients screening positive for COVID symptoms directly to RSCs for walk-ins with the "Clinic to RSC Passport."**

Monday-Friday 8-12:30 & 1-5pm; closed at lunch  
1825 4th street, 4th floor, Gateway Medical Building San Francisco, CA 94158

**Notes:**

1. Patients that live far from UCSF or present spontaneously will be tested upon admission.

2. Procedures currently warranting pre-admission / pre-procedure COVID screening:

- Antepartum (planned)
- Induction of Labor (IOL) by OCR
- Induction of Labor (IOL) admit
- Planned Cesarean
- ECV, Cerclages
- L&D: D&C/D&E
- WOC: D&C/D&E
- FTC: IUT, PUBS, EXIT
- CRH: Egg retrieval

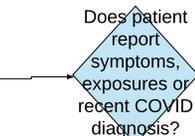

Clinical Staff (RN, APP or MD) to have call or Video Visit with patient within one week of procedure, pre-screen using the following smartphrase:

1. In the past 14 days, patient had any of the following new / acute symptoms:
  - Fever (objective or subjective) or chills
  - Unexplained muscle aches
  - Respiratory symptoms (dyspnea or cough)
  - URI symptoms (sinus congestion, rhinorrhea, sore throat)
  - GI symptoms (diarrhea, nausea, vomiting)
  - ENT symptoms (loss of taste or smell)
  - Eye symptoms (conjunctivitis)

2. In the past 14 days, patient had sustained close contact (such as household contact or other unprotected exposure) with a person diagnosed with COVID-19?

3. In the last 20 days, patient had a positive COVID-19 test?

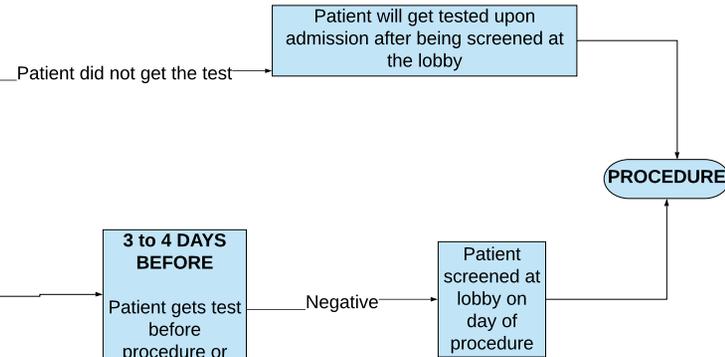

**\*\*Clinics may elect to allow 10-day clearance if patient meets criteria. See "Discontinuation of Isolation" document on the COVID website for details. Clearance letter available in Apex Letter templates.**

Consult w/ attending MD  
**\*\*If symptomatic, provider can use the Ambulatory OB Remote Triage Algorithm to determine next steps.**  
**\*\*If asymptomatic with recent COVID diagnosis or exposure, refer to the "Criteria for Discontinuation of Isolation & Return to Care Guidance for COVID Positive Patients" document on the Infection Control COVID website for help with testing & PPE decisions.**

1. Place order for COVID-19 RNA, Testing (Priority 1-4) Order status: Future  
-Within COVID order, select Priority 2 (asymptomatic pre-procedure)  
2. Place referral order "Ambulatory Referral to Respiratory Screening Clinic or Testing Only Appointment (UCSF ONLY)"  
-Visit Type: "Pre-admission/procedure testing only"  
-Add target date for testing (3-4 days pre-procedure)\*\*

**\*\*If date of procedure is changed, contact COVID Central Scheduling (415-514-2850) to adjust test date**

1. Proceduralist will contact the patient about next steps  
2. If patient develops COVID-19 symptoms, she should contact her OB team for further guidance. Additional triage can be done by the COVID hotline if needed  
3. Contact MFM of the day & Dr. Irani  
**\*\*If procedure is required despite a positive COVID result, refer to the "Criteria for Discontinuation of Isolation & Return to Care Guidance for COVID Positive Patients" on the Infection Control COVID website for PPE decisions.**
