NOVEL CORONAVIRUS (COVID-19)
UCSF CONTINUE TO WORK - RETURN TO WORK GUIDELINES FOR STAFF (1)
Effective January 19, 2022

01/19/2022– Changes made
1. Update: High Risk Exposures with Quarantinable exposure can return to work by attesting to COVID-19 testing protocol Daily Health Screener (Page 6)

Direct questions about the process to the COVID-19 Hotline at 415-514-7328 or COVID Response Team at 415-476-8000

</tr>
<tr>
<td>• Diarrhea (defined as ≥ 3 stools in 24 hrs.)</td>
<td></td>
<td></td>
<td>If COVID-positive: Take the Daily Health Screener and report that you tested positive to COVID-19. You will receive instruction on testing and when you need to contact the COVID Hotline.</td>
</tr>
<tr>
<td>• Eye redness +/- discharge (“pink eye,” not related to allergies)</td>
<td></td>
<td></td>
<td>*For Isolated Runny Nose, if you work on a High Risk Unit², a respiratory virus panel will be performed.</td>
</tr>
</tbody>
</table>

---

Direct questions about the process to the COVID-19 Hotline at 415-514-7328 or COVID Response Team at 415-476-8000

*For Isolated Runny Noise, if you work on a High Risk Unit², a respiratory virus panel will be performed.

- If COVID-negative but positive for any other respiratory viruses: Do not return to High-Risk Unit for work until symptoms are resolved at ≥ 3 days since Runny Nose onset
- If COVID-negative and negative for all other respiratory viruses: Return to work after ≥3 days since Runny Nose onset with symptom monitoring; if ANY symptoms arise, notify manager, go/stay home, and call the Hotline (415.514.7328) for further review.
## Symptom/Exposure Review

### Can I Work Today?
- Possibly, see below for details.

### Before Returning to the U.S.
The Centers for Disease Control and Prevention (CDC) requires all air passengers entering the United States (including U.S. citizens and legal permanent residents) to present one of the following:
- A negative COVID-19 test taken no more than 1 day before departure flight to the U.S.; or
- Proof of COVID-19 infection within the last 90 days.

### FULLY-VACCINATED:
- You can return to work after following the criteria below:
  - Pre travel test: No more than 1 day before departure flight to the US to comply with CDC/US government policy – Send COVID results to covidohsmz@ucsf.edu
  - 1st Post travel Test: within 24 hours of entering a UCSF facility; UCSF approved tests only – Send COVID results to covidohsmz@ucsf.edu
  - 2nd post travel Test: 3-5 days after 1st post travel test. UCSF approved tests only – Send COVID results to covidohsmz@ucsf.edu
  - Monitor symptoms for 14 days after return.

### Do I Need to Stay at Home?
- NO, if you are fully-vaccinated, you can work, but must test for COVID-19 within 24 hours of entering UCSF Facility.
- YES, if you are not fully-vaccinated, stay at home until you have obtained COVID Response Team clearance to return to work.
- Outside of work, follow post-travel (home) quarantine guidance.
- Call the COVID Hotline (415.514.7328) for return-to-work clearance.
- Self-monitor for 14 days, beginning on the first day back in the US.
- Home Isolation instructions

### When Can I Return to Work?

The UCSF Daily Health Screener will provide instructions and testing options, including self-scheduling option.
- If you are fully-vaccinated you do not need to quarantine, but you should monitor symptoms for 14 days after return, and you should obtain a COVID-19 test through Color, within 24 hours of entering UCSF facility, and test again 3-5 days later. If you have immunocompromised medical conditions, consult with your doctor about the timing for return to work.

- If you are not fully-vaccinated: COVID Response Team Interview and CLEARANCE EMAIL IS REQUIRED BEFORE RETURNING TO WORK. General principles listed below.

- If you returned from travel and develop COVID 19 Symptoms (listed in #1 above), complete the Daily Health Screener for testing instructions or call the COVID Hotline (415.514.7328) for testing and further evaluation
- Self-monitor for symptoms for total of 14 days
- Home Isolation instructions
- Consult with your medical provider as needed or if symptom worsens
- Call the COVID Hotline (415.514.7328) for return-to-work clearance

---

2. In the past 10 days, have you returned from travel outside the U.S.?

SFPDH, CDPH and UCSF will follow COVID-related travel guidance from CDC

[International Travel During COVID-19](#)

All New Hires to UCSF, please refer to additional UCSF travel guidance found here: [UCSF Travel Guidance](#)

More information about COVID-19 risk in different countries can be found at CDC and WHO websites.  

(Cont. on page 4)

### Symptom/Exposure Review

3. Have you traveled outside of California, but within the United States?

UCSF travel guidance found here: [https://coronavirus.ucsf.edu/travel#bayarea](https://coronavirus.ucsf.edu/travel#bayarea)  

UCSF testing page: [https://coronavirus.ucsf.edu/testing#travel](https://coronavirus.ucsf.edu/testing#travel)

### Can I Work Today?

Possibly, see below for details.

FULLY-VACCINATED:\*: You can return to work after following the criteria below:
- Consider COVID testing on symptoms or high-risk exposures during travel

NOT FULLY-VACCINATED:\*:  
- Continue with NPI testing requirements.  
- Monitor symptoms for 14 days after return.

### Do I Need to Stay at Home?

- Stay at home if you have symptoms listed in #1, and call the COVID Hotline (415.514.7328) for testing and evaluation
- [Report to Daily Screener](https://coronavirus.ucsf.edu/dailyhealth) if you had an exposure during travel or any of the following:
  1. Have had close contact with a confirmed COVID-19 Person for >60 minutes – this includes Carpooling, intimate contact (e.g., dancing, kissing, sharing bed).
  2. Cumulative time of >24 hours to a confirmed COVID-19 Person
- Report to Daily Screener if you had an exposure during travel or any of the following:
  1. Have had close contact with a confirmed COVID-19 Person for >60 minutes – this includes Carpooling, intimate contact (e.g., dancing, kissing, sharing bed).
  2. Cumulative time of >24 hours to a confirmed COVID-19 Person
- Monitor symptoms for 14 days after return.
- Call the COVID Hotline (415.514.7328) for testing and evaluation
- Report to Daily Screener

### When Can I Return to Work?

The UCSF Daily Health Screener will provide instructions, including self-scheduling option.

If you are fully-vaccinated\* you do not need to quarantine, but you should monitor symptoms for 14 days after return. If you have immunocompromised medical conditions, consult with your doctor about the timing for return to work.

If you are not fully-vaccinated\*: Continue with NPI testing schedule.

General principles listed below.

- If you returned from travel and develop symptoms of COVID-19 (listed in #1 above), complete the Daily Health Screener or call the COVID Hotline (415.514.7328) for testing further evaluation, and clearance
- Self-monitor\* for symptoms for total of 14 days
- Home Isolation instructions\*
- Consult with your medical provider as needed or if symptom worsens

---

*Direct questions about the process to the COVID-19 Hotline at 415-514-7328 or COVID Response Team at 415-476-8000*
<table>

</tr>
</thead>
<tbody>
<tr>
<td>4. In the past 14 days, have you had unprotected, prolonged close contact (or Aerosol Generating Procedure (AGP) of any duration) with someone with confirmed/diagnosed COVID-19?</td>
<td>YES, if you complete the UCSF Daily Health Screener and attest to conditions for continuation/return to work.</td>
<td>Not usually. Please use Daily Health Screener for guidance.</td>
<td>CONDITIONS FOR CONTINUING OR RETURNING TO WORK ARE BASED ON COVID-19 EXPOSURE RISK ASSESSMENT. THE DAILY HEALTH SCREENER WILL PROVIDE CONTINUATION AND RETURN TO WORK GUIDANCE.</td>
</tr>
</tbody>
</table>

Unprotected includes:  
- The exposed Individual not wearing an approved facemask or covering  
- The exposed Individual wearing a mask but not wearing eye protection, if the person with COVID-19 was not wearing a cloth face covering or facemask  
- The exposed Individual not wearing all recommended PPE while performing aerosol-generating procedure for any time- period of exposure  
Recommendation – The exposed individual had an on-going exposure, not wearing all recommended PPE while an aerosol-generating procedure was in progress  

Prolonged, close contact defined as within 6 feet for 15 mins or longer.

High risk exposure is categorized into either quarantinable or non-quarantinable exposures:  

Quarantinable High Risk exposure types:  
- Employee lives with a confirmed COVID-19 Person - household member  
- Have had close contact with a confirmed COVID-19 Person for >60 minutes – this includes Carpooling, intimate contact (e.g., dancing, kissing, sharing bed).  
- Cumulative time of >24 hours to a confirmed COVID-19 Person  
- On-going AGP exposures

If you develop symptoms, immediately cease patient care or other work activities, notify supervisor, go home, and call the COVID Hotline (415.514.7328) for further review.

<tbody>
<tr>
<td><em><em>5. Do you live with someone (Household member) who is waiting for COVID test results</em> due to COVID type symptoms?</em>*</td>
<td>● YES, YOU CAN CONTINUE/RETURN TO WORK IF ASYMPTOMATIC. ● Call the COVID Hotline (415.514.7328)</td>
<td>Regardless of vaccination status, you may continue to work, and call Covid Response Team for final clearance.</td>
<td>If household member’s result returns <strong>NEGATIVE</strong> for COVID-19, you may return to work. If household member’s result returns <strong>POSITIVE</strong> for COVID-19, Call the COVID Hotline (415.514.7328) for assessment and further instructions. See further details under #7 above.</td>
</tr>
</tbody>
</table>

*If household member has COVID compatible symptoms and does not test for COVID, See the last column for guidance.

---

**If you are fully vaccinated and your household member DECLINES TESTING:**
- Continue/return to work if asymptomatic
- Employee COVID testing on day 3-5 and day 7-9
- Symptom monitor for 14 days after initial exposure
- COVID Response Team will facilitate testing for household member(s) if needed.

**If you are fully vaccinated and your household member HAS A TEST PENDING**
- Continue/return to work if asymptomatic
- If the test pending is not resulted within 5 days of symptoms onset, then Employee COVID test after day 5
- Symptom monitor until test results
- COVID Response Team will facilitate testing for household members if needed.

**If you are not fully vaccinated and your household member DECLINES TESTING AFTER INTERVIEW BY THE COVID RESPONSE TEAM**
- Continue/return to work if asymptomatic
- Employee COVID testing on day 3-5 and day 7-9, **then weekly with ongoing HH member exposure**
- Symptom monitor for 14 days after last exposure

**If you are not fully vaccinated and your household member HAS A TEST PENDING**
- Continue/return to work if asymptomatic
- COVID Response Team will facilitate testing for household members If the test pending is not resulted within 5 days of symptoms onset, then test after day 5.
- Symptom monitor until test results
6. Have you been diagnosed with COVID-19 infection in the past 20 days?

**IN LIGHT OF CURRENT OMICRON SURGE AND CRITICAL STAFFING, California Department of Public Health has issued new guidance to help address critical staffing in health care facilities.

</table>

Direct questions about the process to the COVID-19 Hotline at 415-514-7328 or COVID Response Team at 415-476-8000
**[STANDARD GUIDANCE]**

**NO, YOU MAY NOT WORK UNTIL YOU RECEIVE CLEARANCE FROM THE COVID RESPONSE TEAM.**

Call the COVID Hotline immediately at (415-514-7328) to report your COVID Positive Test Results or do this by completing the Daily Health Screener. Please do within 24-hour of receiving your test result.

If you are hospitalized, please have a family member call to report on your behalf.

**[STANDARD GUIDANCE]**

**YES, stay at home and inform your manager that you will not be going to work:**
- Call the COVID Hotline (415-514-7328) to report your COVID positive illness (within 24-hours) and receive follow up instructions.
  - UCSF Employees: Call COVID Hotline (415.514.7328) to report your COVID-positive illness and receive follow-up instructions.
  - Students call SHCS at 415-476-8736
  - BCH Oakland Enterprise Health at 510-428-3620
- Self-monitor⁵
- Home Isolation instructions⁶
- Limit travel outside of the home
- Consult with your medical provider as needed or if symptoms worsen

**[STANDARD GUIDANCE]**

COVID RESPONSE TEAM CLEARANCE EMAIL IS REQUIRED BEFORE RETURNING TO WORK.

Except for rare situations, repeat COVID-19 testing prior to Return to Work is NOT recommended by CDC & SFDPH.

- **Asymptomatic or Mild-Moderate Illness⁷a**
  - Return to work after **10 days** since positive test (if asymptomatic) or since first day of symptoms, if the following criteria are met:
    - At least 24 hours have passed since last fever without the use of fever-reducing medications (e.g., acetaminophen, ibuprofen, aspirin); AND
    - 48 hours have passed since last episode of diarrhea, AND
    - Symptoms are improving, AND
    - No concurrent immunocompromising conditions (see #3 below)

- **Severe or Critical Illness⁷b**
  - Return to work after **20 days** since first day of symptoms, if the following criteria are met:
    - At least 24 hours have passed since last fever without the use of fever-reducing medications (e.g., acetaminophen, ibuprofen, aspirin); AND
    - 48 hours have passed since last episode of diarrhea, AND
    - Symptoms are improving

- **Immunocompromising Conditions⁷c**
  - Return to work clearance provided after 20 days since symptom onset, or as indicated by your primary health provider. Examples of immunocompromising conditions are listed below⁷c.
  - If you have an immunocompromising condition or are being treated with biologics, please obtain written confirmation from a medical provider, and be prepared to share that with the COVID Response Team.
Staff includes all employees, faculty, temporary workers, trainees, volunteers, students, and staff who provide services to or work in UCSF patient care or clinical areas.

UCSF High Risk Units or Areas

1. Mission Bay: C3 ICN, C6 BMT, C6 Heme/Onc, and the Birth Center
2. Parnassus: Units 11L and 12L

- Employees/Providers with symptoms or high-risk exposures cannot work in designated High-Risk Areas.
- Employees/Providers with duties across units/areas should arrange patient assignment/duties with their supervisor/attending physician to minimize direct contact with high-risk populations.
- **High Risk Populations**: defined as immunocompromised patients (Solid organ transplant (SOT), SOT listed, SOT evaluation in process, primary immunodeficiency, and receiving immunosuppressants including chronic high-dose steroids, chemotherapy, biologics)

UCSF exposure definitions for testing & return to work decisions Click here. (Also accessible on page 10 of this document)

Coronavirus Symptom Self-Monitoring:
- Manual monitoring form can be found Here

Home Isolation Instructions from CDC found Here

Mild Illness: Individuals who have any of the various signs and symptoms of COVID 19 (e.g., fever, cough, sore throat, malaise, headache, muscle pain) without shortness of breath, dyspnea, or abnormal chest imaging. Moderate: Individuals who have evidence of lower respiratory disease by clinical assessment or imaging and a saturation of oxygen (SpO2) ≥94% on room air at sea level.

Severe Illness: Anyone requiring hospitalization or supplemental O2. Critical Illness: Individuals who have respiratory failure, septic shock, and/or multiple organ dysfunction.

Immunocompromising conditions may include (adapted from CDC guidance):
1. Receiving current chemotherapy for malignancy
2. Having a hematologic malignancy that may be suppressing the immune system
3. Untreated HIV infection and CD4 T lymphocyte count < 200
4. Primary severe immunodeficiency disorder
5. Solid organ or hematopoietic stem cell (bone marrow) transplant recipient
6. Receipt of prednisone 20 mg/day or the equivalent for more than 14 days, or treatment with other high-risk immunosuppressive medications
7. The determination of whether persons with these conditions should return to work at 10 vs. 20 days should be made by the person’s health care provider.

Fully-vaccinated individuals defined as > 2 weeks since 2nd dose in 2-dose series (or 1st dose if single dose vaccine). Individuals who received a vaccine which does not have an FDA EUA, those who received a clinical (research) trial vaccine, or individuals with high-risk exposures who are immunocompromised, will require an interview by the Occupational Health COVID Response team to discuss immunity.

Automated Return-to-Work Clearance During Surge
**UCSF EXPOSURE DEFINITIONS FOR TESTING & RETURN TO WORK DECISIONS**

### Infectious Period:

<table>
<thead>
<tr>
<th>COVID + Individual</th>
<th>Infectious Period Begins</th>
</tr>
</thead>
<tbody>
<tr>
<td>Asymptomatic</td>
<td>48 hours before COVID positive test collection</td>
</tr>
<tr>
<td>Symptomatic</td>
<td>48 hours before date of symptom onset OR 48 hours before COVID positive test collection - whichever came first</td>
</tr>
</tbody>
</table>

### Exposure Risk Level

<table>
<thead>
<tr>
<th>Exposure Risk Level</th>
<th>Direct Contact with a COVID + individual during infectious period*</th>
<th>Length of time within 6 feet of COVID + individual</th>
<th>PPE of COVID + individual</th>
<th>PPE of employee</th>
</tr>
</thead>
<tbody>
<tr>
<td>No Exposure</td>
<td>No</td>
<td>0-2 minutes of cumulative** contact at any proximity</td>
<td>Any or none</td>
<td>Any or none</td>
</tr>
<tr>
<td>Minimal Risk Exposure</td>
<td>Yes</td>
<td>3-14 minutes of cumulative** contact (please note: &gt;15 minutes at &gt;6 feet is also deemed minimal risk)</td>
<td>Any or none</td>
<td>Any or none</td>
</tr>
<tr>
<td>Low Risk Exposure</td>
<td>Yes</td>
<td>15 or more minutes of cumulative** contact</td>
<td>At least a face covering</td>
<td>At least a face covering</td>
</tr>
<tr>
<td>Medium Risk Exposure</td>
<td>Yes</td>
<td>15 or more minutes of cumulative** contact</td>
<td>None</td>
<td>At least a face covering</td>
</tr>
<tr>
<td>Medium Risk Exposure</td>
<td>Yes</td>
<td>15 or more minutes of cumulative** contact</td>
<td>None</td>
<td>None</td>
</tr>
<tr>
<td>High Risk Exposure: Non-Household Contact</td>
<td>Yes</td>
<td>15 or more minutes of cumulative** contact</td>
<td>At least a face covering</td>
<td>None</td>
</tr>
<tr>
<td>High Risk Exposure: Household Contact</td>
<td>Does not have to be direct contact, but more than 24 hours of time spent in the same household with person with confirmed COVID-19 during infectious period</td>
<td>Length of time is not relevant for household contacts - it is assumed to be ongoing given potential for droplet and surface exposures</td>
<td>Any or none</td>
<td>Any or none</td>
</tr>
<tr>
<td>High Risk Exposure: Aerosol Generating Procedure</td>
<td>Yes</td>
<td>Any length of time during the AGP or within 1 hour afterwards in non-OR setting at any proximity within the room/general vicinity. Depending on air turnover, OR suites are either 15- or 30-minute conversions-HEIP can provide info to make this determination.</td>
<td>Any or none</td>
<td>Anything less than eye protection + N95 or PAPR</td>
</tr>
</tbody>
</table>

**To determine cumulative contact time, add up the time during any periods that the employee and COVID+ individual were together during the infectious period. For example, if an employee is in a breakroom with a COVID+ individual two different days in a row, for 10 minutes each day, that would be 20 minutes of cumulative contact.

<td>Rapid Antigen test at UCSF performed on day 5 or later</td>
<td>Yes</td>
<td>Yes, after hotline rapid test schedule</td>
<td>Yes: Self-assess, test and self-clear with Daily Health Screener, Receive RTW Clearance Email</td>
</tr>
</tbody>
</table>

---

1. Only UCSF-approved tests are required. Information is in the Daily Health Screener.
2. For example, non-COVID related runny nose, sore throat, cough, etc.
3. Highest Risk Exposures | For reduced quarantine, individuals must have completed 1st series of COVID vaccination and not have immunocompromised conditions. High-risk exposures that are eligible for continuation of on-site work without quarantine include exposures to COVID-positive household members, to members of carpools, and to aerosol-generating procedures.

---

Direct questions about the process to the COVID-19 Hotline at 415-514-7328 or COVID Response Team at 415-476-8000
